PAU Chemicals

RELIABLE SUPPLY, EVERY TIME

OUR CORE ADVANTAGES

PAU Chemicals simplifies chemical sourcing by solving delays, quality issues, and export complexities — connecting you directly to India's trusted chemical market with reliable supply, assured purity, and hassle-free delivery.

• **Strict Quality Control**

Every batch is tested to ensure consistent purity and reliable quality.

• **Deep Industry Experience**

Our experienced team delivers the right solutions based on your specific requirements.

• **Smooth Shipping & Customs**

We manage logistics, documentation, and compliance for hassle-free deliveries.

• **Great Prices, Same Quality**

Competitive pricing through strong sourcing networks without compromising quality.

• **Flexible Order Sizes**

From trial quantities to bulk shipments, we supply according to your needs.

PAU Chemicals

RELIABLE SUPPLY, EVERY TIME

Our Product Categories

1 Food, Pharma & Personal Care

Source high-purity ingredients and core additives essential for sweetening, shelf-life preservation, hydration, and safe formulations in human-grade manufacturing.

- Dextrose Anhydrous
- Dextrose Monohydrate
- Glycerine
- Liquid Glucose
- Maize Starch
- Maltodextrin
- Sodium Benzoate
- Sodium Bicarbonate
- Sorbitol 70%
- Zinc Oxide

2 Solvents & Petrochemicals

Optimize manufacturing efficiency with premium solvents and active intermediates engineered for demanding applications in industrial coatings, resins, plastics, and packaging.

- Acetic Acid
- Acid Slurry (LABSA) 90%
- Ammonium Hydroxide
- Caustic Soda Flakes
- Formic Acid
- Hydrochloric Acid (HCl) 33–35%
- Nitric Acid 68%
- Phosphoric Acid 85%
- Potassium Hydroxide
- Sodium Carbonate
- Sulphuric Acid 98%

RELIABLE SUPPLY, EVERY TIME

Our Product Categories

3

Acids, Alkalis & Surfactants

Power large-scale operations with foundational heavy chemicals vital for chemical synthesis, precise pH regulation, and heavy-duty detergent manufacturing.

- Acetic Acid
- Acid Slurry (LABSA) 90%
- Ammonium Hydroxide
- Caustic Soda Flakes
- Formic Acid
- Hydrochloric Acid (HCl) 33–35%
- Nitric Acid 68%
- Phosphoric Acid 85%
- Potassium Hydroxide
- Sodium Carbonate
- Sulphuric Acid 98%

4

Water Treatment & Disinfectants

Ensure safe, compliant water systems with active coagulants, flocculants, and oxidizers designed for municipal purification, effluent processing, and sanitation.

- Aluminium Chlorohydrate Solution 50%
- Aluminium Sulphate
- Calcium Hypochlorite Liquid 68%
- Calcium Hypochlorite Powder
- Ferric Chloride
- Hydrogen Peroxide
- Hydrogen Peroxide 50%
- Poly Aluminum Chloride

RELIABLE SUPPLY, EVERY TIME

Our Product Categories

5 Colors, Dyes & Pigments

Explore premium colors, synthetic dyes, and insoluble lakes designed for brilliant visual appeal and consistent performance across your food, cosmetic, and industrial applications.

Water Soluble Colors:

- Tartrazine
- Allura Red
- Sunset Yellow
- Carmoisine
- Ponceau-4R
- Brilliant Blue FCF
- Indigo Carmine
- Chocolate Brown
- Quinoline Yellow

Lake Colors:

- Lake Tartrazine
- Lake Allura Red
- Lake Sunset Yellow
- Lake Carmoisine
- Lake Ponceau-4R
- Lake Brilliant Blue FCF
- Lake Indigo Carmine
- Lake Chocolate

Blend Colors:

- Egg Yellow
- Black CTB
- Black NCTB
- Black 1011
- Kesari B
- Apple Green
- Pea Green
- Raspberry Red
- Strawberry Red
- Chocolate Brown

Our Product Categories

6

Industrial & Agrochemicals

Drive agricultural and industrial yields with trusted metallic salts and inorganic compounds perfectly suited for crop nutrition, animal feed, metallurgy, and specialized manufacturing.

- Aluminium Chloride
- Ammonium di Molybdate
- Calcium Carbonate
- Calcium Chloride
- Copper Sulphate
- Ferrous Sulphate Heptahydrate
- Magnesium Sulphate
- Manganese Sulphate
- Zinc Sulphate Heptahydrate
- Zinc Sulphate Monohydrate

As an export-driven enterprise, PAU IMPEX adheres to international safety, purity, and trade standards, ensuring transparent operations and consistent quality for global manufacturers.
